SATURDAY, MARCH 12, 1887

Commenting on the recent decision of the Supreme Court of the United States in respect to drummers' licenses, the San Francisco Call of yesterday is undoubtedly correct in its utterance of the following:

The principle of the decision is that one State may not distinguish against the products of another State. The decision certainly does not require a State to give persons selling goods manufactured in another State a preference over local tradesmen. The object of the decision is to place all traders, without regard to place of residence, on an equality so far as relates to the prosecution of their business. Municipal and State governments find it necessary to tax local merchants. It would be absurd to assume that non-resident salesmen may not be taxed as well. The law may be objectionable to the constitutional provision that commerce among the States shall be free, but a law certainly may be framed to reach all classes doing business under the protection of our laws.

The Oakland, Cal., newspapers are evidently trying to inaugurate a boom for that city. They are talking about the magnificent stretches of country, dotted with pleasant residences, surrounded by beautifully arranged and attractive gardens, orchards and well-kept lawns, grand avenues stretching away into vernal, refreshing, thrifty country side, where agriculture, horticulture, and viticulture are the occupations that engage the present owner's attention, etc. This is the kind of talk would-be investors like to hear. When Reno gets pure water, a complete system of sewerage and a few more industries established along the Truckee, then her citizens can tell outsiders of the many great advantages and opportunities that await them here.

"A Government officer high in authority" is said by the New York World to prophesy a financial strugency very soon which will lead to a panic. It looks as though the present Administration has a weakness for predicting financial disasters. Grover himself imagined, shortly after his inauguration, that he could see in the near future a panic worse than that of 1874, unless the coinage of silver was stopped at once. The coinage goes on and the country prospers.

San Carlos Apaches in Arizona are again said to be on the rampage. Several ranchers and cattlemen are reported killed and wounded, and numerous head of horses stolen. The depredations thus far have been in the vicinity of Phoenix, Tucson and Benson. Florida is evidently yawning for a few more of the renegades.

All night long the church was guarded by Plymouth Company "G," and at 7 this morning the remains were turned over to the Plymouth church committee who had charge of the burial. Only the family and close personal friends of the deceased went out to the cemetery. The funeral cortege proceeded from the church to Greenwood cemetery by the shortest route.

The plot was discovered and Beloff and a portion of his followers decamped. The others were arrested, and have confessed that they were paid to come and do whatever they were instructed to do. A list of the members of the Government party was found in Beloff's lodgings. Some of the names on the list were marked, and it is presumed that the conspirators intended to assassinate the persons so designated.

### INTERSTATE COMMISSIONERS

#### An Interview Last Evening With Two Prominent Democrats of California.

Jesse D. Carr, of Salinas, Cal., and E. McGettigan, of Vallejo, two prominent Democratic politicians, passed through Reno last evening on the west-bound overland from Washington, D. C. In a hurried conversation with a GAZETTE reporter concerning President Cleveland's choice for the five Commissioners to be appointed by him under the Interstate Commerce law, Mr. Carr said: "I had a conversation with the President last Saturday concerning the matter, when I urged the appointment of a Pacific Coast man, and he said that he favored men eminently qualified for the office rather than locality. From what I could discern he has about decided on W. R. Morrison, of Illinois, Judge Bragg, of Alabama, and Judge Colquitt. The last named already holds a very lucrative railroad appointment in the West, and I hardly think he will accept. I have no idea who the other two will be. It is almost imperative that the interests of the Pacific Coast be represented by a man who thoroughly understands our situation under the new law, but I have doubts as to whether our entreaties will be heeded. The Republicans of the coast are urging the appointment of Swift. Judge Shafter and T. G. Phelps are also mentioned. A large delegation of Democrats favor Colonel John P. Irish."

Mr. Carr then spoke of Congressman Henley having relinquished his claim to the appointment of Special Commissioner on Union Pacific and Central Pacific matters, and of W. W. Foote being prominently mentioned for the place. He spoke as though he feared that if the President would give the Pacific Coast any consideration in these railroad appointments it would be on this special commission of investigation.

### COUNTY COMMISSIONERS.

#### Proceedings of the Special Meeting Held To-day.

The Board of County Commissioners held a special meeting to-day; Mr. Merrill was absent.

A petition was presented to the Board, signed by a majority of the resident tax-payers of Reno Road District, asking that the highway from the present terminus of Fourth street be extended in a direct line easterly to Winfrey's ranch. The petition was granted, and the said highway was ordered changed and opened to public use as prayed for. Samuel Brown, whose land the highway will extend through, objected to the change. The Board condemned the land and appointed J. A. McFarlin, on behalf of the county, to meet in conjunction with a person to be named by Mr. Brown, to assess and report the damages.

A remonstrance, signed by citizens of Reno School District, protesting against the new school District, No. 19, recently formed out of portions of Reno and Huffer School Districts, was read and ordered filed for further consideration. The Board adjourned until 4 P. M., when the vote cast at the election last Wednesday will be counted, and a tax probably levied for school purposes of 25 cents on each \$100 valuation of property within this School District.

#### The Mormon Church.

The English edition of Mrs. Stenhouse's last work, entitled "An Englishwoman in Utah—A Life's Experience in Mormonism," is now on sale. The book contains all that was published in the two former written by Mrs. Stenhouse on this subject, with the addition of the life and confession of John D. Lee. Mrs. Stenhouse tells how and by what methods the Mormon Church was built up and maintained; how Brigham Young "schemed" to have his revelations and prophecies fulfilled and how the Mountain Meadow massacre occurred. The mysteries of the Endowment House are explained in detail, the description of which leaves one with an impression that the mummeries of the secret rites of religion are necessary to the development of the fool in the human family. Speaking of the bond of sympathy which holds the women of the Mormon Church together she says: "After I had consented and in reality had given my husband a second wife, my status in polygamic society was considerably improved. First wives who lived in, and firmly believed this 'order of celestial marriage,' tried in every way to make me feel that I was with them; and those who had not much faith felt more kindly towards me, because I had been caught in the same snare with themselves." The book is worthy the attention of every lover of home and morality and should be read by all, as it throws more light on the inner life of wretched Mormonism than any book yet published. It is for sale at H. Davis & Son's book store, Commercial row. Price \$1.

### St. Mary's Academy.

Beyond the immediate future of this institution of learning few are aware of the earnest work that is steadily carried on there. A friend of the GAZETTE had the pleasure this week of visiting the class-room and various other departments of the academy, and was fully impressed, not only with the superior ability of the sisters and other teachers as educators, but also of the ambition of the young lady pupils to avail themselves of the educational advantages and of the moral and refining influences with which they are constantly surrounded. The easy and lady-like deportment of these pupils on the street and elsewhere is proof of that daily practice which is really distinguished from the assumed "company manners." The large number of young ladies now in attendance as boarders is most encouraging to those who have labored so hard to make the school what it is to-day. All are pictures of perfect health and happiness, as many remark who meet them during their pleasant, long walks every bright afternoon.
